HUDSON'S SUPER-FLOOR

THROUGH SECTION OF SUPER-FLOOR [SHOWING SECRET NAILING.]

TO meet the demand for a more modern floor covering, we have installed some of the latest and most expensive machinery for the manufacture of Super-Floor.

This flooring has been in use in America for some considerable time. It has been subjected to the most severe tests, and has proved itself to be the best floor covering obtainable both as regards wearing qualities and from a decorative and sanitary point of view; the evidence of its great popularity is in the increasing demand for it. It is absolutely essential for covering floors of flats, and where sound is required to be eliminated.

As shown in the accompanying drawings, each piece is tongued and grooved all round, so that when fixed it is inter-locked. In addition, each section is bored every 4in. and secret nailed, thereby eliminating all unsightly nail-holes.

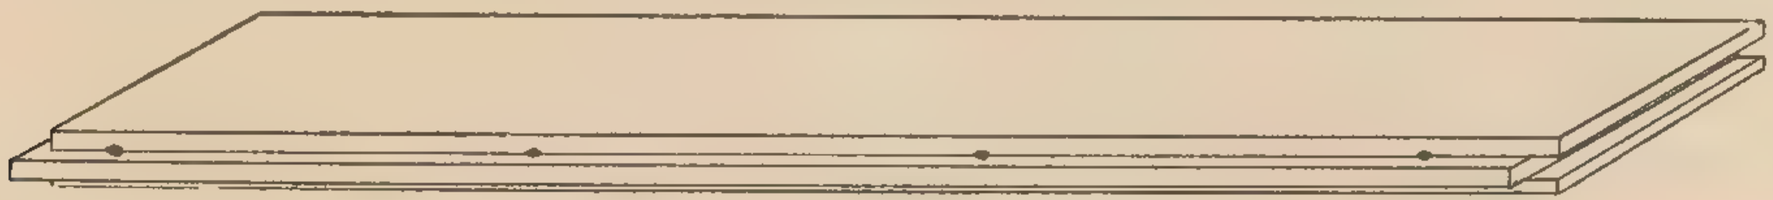
"HUDSON'S SUPER-FLOOR" is manufactured only from thoroughly-seasoned timber; it will not shrink or warp, is impervious to water, and is perfectly hygienic.

We supply **"HUDSON'S SUPER-FLOOR"** fixed, cleaned off, sand papered and wax-polished at a cost considerably less than the price of good linoleum, or we will supply the material in bundles ready for fixing, milled, end-matched and bored for secret nailing. Its simplicity enables anyone with only a slight knowledge of carpentering to fix.

We Stock HUDSON'S SUPER-FLOOR in Jarrah, Maple and Oak.

in lengths and sizes suitable for making up any number of designs, and will be pleased to quote for material only, or for the flooring laid and finished complete.

Super-flooring is a Luxury Combined with an Economic Necessity.



PERSPECTIVE VIEW OF SUPER-FLOOR.
